Our Hand Burnished finish is achieved by using abrasives to polish the surface of the Cast Iron. We then apply light oil to the radiator prior to despatch. This will require maintaining by reapplying the oil as required. Any contact with moisture should be avoided and therefore do not recommend using this finish in bathrooms etc.

Due to the limitation of the printing process/photography, please note that colours may vary from the actual painted finish. We recommend you request a free colour swatch prior to purchase.

(Not available for Highlight Polish, Hand Burnished & Antique finishes)

As each radiator is hand built and seal compression/machined faces vary slightly, measurements given are for guidance only and should not be used for the location of pipe work.

We reserve the right to amend designs without prior notification.

## Welcome

With the largest range of reproduction cast iron radiators available in the UK along with our bespoke build and finish service, we are proud to offer this exclusive collection. We also offer a wide range of finely detailed radiator valves and accessories to suit.

With products ranging from the extensive vintage Victorian series to the exquisite Antoinette model, to enrich any décor.

All of the finishing and assembly is completed in our UK workshops by our skilled technicians. We take great pride in our products and workmanship and offer a full 10 year Guarantee.

If you have any questions at all, please contact us on:

## The Daisy

This elegant decorative radiator, first produced in France in the 1890's, was originally intended for use with steam.

This design has since evolved to be used on hot water systems and features an eye catching daisy design flowing from top to bottom.
